Residential wastewater charges are based on 100% of metered water consumption based on quarterly readings. Residential wastewater charges for the two summer quarters are based on winter quarters water use, in order to avoid wastewater charges for water not entering the wastewater system, i.e. Car washing, lawn and garden watering. Depending on actual meter reading dates the summer watering period extends from about March 1st to September 1. Residential customers anticipating significant water usage not requiring wastewater treatment outside of this period should contact the Water Utility at 715-232-2395 for a wastewater charge adjustment **PRIOR** to the time the water is used. Sewer rates were last updated in 2018.
